Building Healthy Habits & Character Development

CORE VALUES:

Our mission is to spark creativity & bolster a deep interest in Science, Technology, Engineering, Arts, & Math in children, & young adults through hands-on practical learning by making. Our aim is to deliver a balanced STEAM-focused education that equips & empowers our learners with the skills, knowledge, & experience vital for their future success. Our students will become innovators, pacesetters, & visionaries who are able to stand out amongst their peers in the 21st century world.

Partner with us to bring our enriching programs to your school community & witness the transformative impact of STEAM education for your students with STEAM Works Studio!

Desired Outcomes

Achievements

- Efforts are valued & recognized.
- Increased perception of self as capable leaders.
- Increased sense of self confidence/esteem.
- Opportunities for academic enrichment: structured homework assistance + project based learning that involves teamwork, time management, & STEAM programming.

Relationships

- Staff have an increased knowledge of each child's personality & interests.
- Families are kept informed & included in their child's success.
- Children feel that they can openly & honestly communicate with staff.

Belonging

- Children feel valued by peers & staff, & included in daily programming.
- Increased awareness of diversity, including different perspectives, ideas, & customs.
